

D VENKATA DURGA PRASAD

✉ dasaripandu1979@gmail.com ☎ 8125325189 🔗 LinkedIn 🇮🇳 india ♂ male 🐙 github

Profile

B tech Computer Science (Data Science) student with a strong interest in **Data Science, Machine Learning, and Artificial Intelligence.**

Experience

Training & internships [🔗](#), *Data Science Internship – Corizo* 08/2025 – 11/2025
Successfully completed a Data Science internship focusing on data analysis, machine learning concepts, and practical data-driven problem solving. Bengaluru

Certifications [🔗](#), *Google advanced data analytics* 02/2026 – 03/2026
The program covered translating data into meaningful insights, applying statistical techniques, performing regression analysis.

Education

B Tech(CSE)-Data Science, *kalasalingam academy of research and education* 08/2023 – 03/2026
CGPA-7.27 krishnan kovil

Intermediate, *sarada educational institutions* 2021 – 2023
Marks obtained-869(86.9%) vijayawada

SSC(Secondary education), *Narayana E techno school* 2020 – 2020
Marks Obtained-Pass vijayawada

Skills

Languages

C++, Java, Python (Basic), JavaScript,bootstrap.

Frontend technologies

JavaScript,HTML,CSS,React,Bootstrap,Tailwind CSS

Backend technologies

REST API Development, Node.js, Express

Data base

MySQL, MongoDB, SQL, Database Design, Data Modeling,render.ai,vercel.ai

Tools & Deployment Git, GitHub, Jupyter Notebook, Power BI, Apache Hadoop, Docker (Basic), Render

Projects

AI-Based Crop Recommendation System [🔗](#)

Developed a machine learning model to recommend suitable crops based on soil nutrients and environmental conditions.

Data Analysis Dashboard

Created an interactive dashboard to analyze business/sales data using Power BI or Tableau.Performed data cleaning, analysis, and visualization to generate meaningful insights

Battery Health Monitoring System

Designed a system to monitor smartphone battery health and predict battery degradation.Analyzed battery usage data and generated insights using Python-based analytics.

Fake News Detection System

Developed a machine learning model to classify news articles as real or fake.Applied Natural Language Processing techniques using Python and TF-IDF vectorization.
